NBME Subject (Shelf) Exam Questions and Answers 9/16/13 3. At the end of the shelf exams they ask how much time students were given for the exams. In our meeting some students reported getting 2 hours and 15 minutes, some 2 hours and 30 minutes, and some students mentioned hearing that there were some

NBME Subject (Shelf) Exam Questions and Answers 9/16/13

There's no inflammation Lab findings: pH greater than 4.5 (just like trichomoniasis), and a positive whiff test with KOH. Stem will say something about malodorous discharge and show the infamous CLUE CELLS if we are lucky. Not the answer for this question obviously because we would not expect vesicles with this bacterial disease.

NBME 21 Answers

Omeprazole inhibits the H⁺/K⁺ pump of the stomach, thereby decreasing the acidity of the stomach. So when the patient takes Omeprazole and Itraconazole together, Itraconazole won't be absorbed into the body. That's why it has no effect. It's recommended to take medications at least 2 hours prior to taking an antacid.
